

Ambiance

By Buck Stove

Our Ambiance line of electric heaters gives you beauty, warmth and convenience, all in one small package. These wonderful heating systems provide you up to 5100 BTU's of heat and a simulated flicker of a real fire. The units can be operated with the included remote or via the front access panel. The controls are simple enough for anyone to operate. The simulated fire gives you the look and feel of real flames without the risk of sparks or burns, making it safe for use in environments with small children or animals. Choose from several different styles of mantels and 3 different types of finishes (Light Oak, Dark Oak and Unfinished) to match your decor. Please visit us online at www.buckstove.com for more information on our Ambiance heaters and for a full listing of all mantel styles currently available.

Features include:**

- Heating Capacity of up to 300 square feet (Equivalent to a 15ft x 20ft Room)
- Thermal Output of up to 5100 BTU/H
- Two Heat Settings: Low (750W) & High (1500W)
- Simulated Fire can be viewed with or without heat
- Includes a glow dimmer
- Comes standard with remote
- Built with a 6ft, 15 amp, 110V electrical cord
- Doesn't require ventilation (Perfect for bedrooms!)
- Standard & Plus Mantels include rolling casters allowing the owner to easily maneuver the units practically anywhere in the home
- Unit comes fully assembled and ready for operation
