Hepplewhite Steel Series

Vent-Free Stove Units*

Almond

Black

Vintage Copper

Green

Terracotta

The Buck Stove Hepplewhite Steel Series Vent-Free Stove is precision designed and assembled in the USA. Like the Townsend Steel, this stove unit is made from high-quality steel which absorbs heat from the fire and radiates warmth even at the lowest setting. The Hepplewhite has a smaller form factor than the Townsend and requires no electricity for operation. The included gas logset provides up to 32,000 BTU's and is 99.9% fuel efficient to save on home heating costs. Standard features include a remote ready millivolt gas valve and a top grill inlay. 1200 degree, powder coated finish available in : Green, Terracotta, Almond, Vintage Copper and Black. Available in LP or Natural Gas.
