

The 25C Tax Credit for qualifying biomass-fueled stoves is now available for purchases made between December 31, 2015 and December 31, 2016

The 25C tax credit for non-business energy property which includes the \$300 credit for residential biomass heating equipment has been extended through December 31, 2017.

This credit applies to purchase made in 2016. Consumers who made residential biomass heating purchases need to retain for their records a manufacturer's certificate that demonstrates the unit qualifies for Sec. 25C and a receipt (Proof of Purchase).
